

### Electrical Distribution Safety

#### **GENERAL STATEMENT:**

ESA (Regulatory - Code Staff) is currently accepting proposed revisions to Section 75 of the Ontario Electrical Safety Code for the 2009 code edition. The intent of the proposed changes is to update Section 75, including both underground and overhead distribution systems.

This is an opportunity for any LDC that references Section 75 for construction of its distribution system to provide direct input. ESA is requesting from Ontario LDCs proposals for revisions, additions, deletions, or comments on Section 75. All comments collected by ESA will be sent to the Section 75 committee for review. Regardless of acceptance or rejection, the submitters will be kept in the loop. All comments must be received by the end of this year for consideration in the 2009 code.

#### **INFORMATION COLLECTION:**

Please send information to:

Email: [gary.gilbert@electricalsafety.on.ca](mailto:gary.gilbert@electricalsafety.on.ca)

Please include contact information such as contact name, phone number, and the name of the organization that you represent. **For each intended modification, rationale and supporting documentation is required.**

#### **ADDITIONAL INFORMATION:**

If you can provide additional information on this Bulletin or any other Utility issue, please contact ESA to share your experiences. Additional information requests, and follow-up information, may be directed to ESA. Please be prepared to quote Bulletin “DIB-05/07”.
